Back Cover	\$3,050	\$2,630	\$2,370

SPECIAL RATES

PMS Colors or metallic inks \$700 per page

Specified position (subject to availability) +10%

Ad rates shown include your exact print advertisement rerun in the online digital edition of our magazine with hotlinks to your company's website or any other digital destination of your choice. There is no extra charge for this added value.

INSERTS

Inserts may be furnished ready for binding into the publication. Each full page is considered a separate insertion when figuring an earned frequency rate. Please call for pricing and mechanical specifications.

PRINT AD FILE PREPARATION

BLEED ADS:

Ads designed to bleed off the edge of the page must have an additional 1/8" beyond the "trim size" listed. Place all critical information within the "live area" listed to ensure it is not cut off during binding.

SOFTWARE:

We prefer press ready PDFs to be submitted with all fonts embedded. The resolution of your PDF should be at least 266 dpi but no more than 550 dpi at full size. If submitting your ad in its native format, only the following Macintosh software applications are acceptable:

- Adobe InDesign CC19 or lower. Please include all fonts and links
- Adobe Illustrator CC19 or lower. Please convert all type to outlines and include any placed art used in the layout

NOTE: We *CAN* accept files from PC versions of these programs, however all fonts will need to be outlined due to font conversion issues. We highly recommend PC users submit artwork as a high resolution PDF. You may also send a high resolution TIFF (.tif) in lieu of the above options. JPEG (.jpg) files should be avoided. We can not accept any ads in Microsoft Word, Publisher or another file format not listed.

IMAGE/PHOTO RESOLUTION:

All photos (color or black and white) used in your layout must be at least 266 dpi to ensure quality reproduction. Line art should be 1200 dpi. All color photos should be converted to CMYK color space. A general rule of thumb: do not use any imagery from a website. Usually these have a very low resolution and will not reproduce well.

FILE NAMING:

Please name your file in a manner that makes it easy for us to identify the advertiser and the issue. Avoid generic names such as "ad.pdf". Instead try: "advertiser_issuemonth_11.PDF".

SUBMITTING:

Files under 10 megabytes can be accepted via e-mail. Otherwise:

- 1) Submit a link to a fileshare site (i.e. dropbox, file, etc).
- 2) Submit your ad file(s) on a Jump Drive, CD or DVD

COLOR PROOFS:

If color is critical, please supply a certified proof. *If no proof is supplied we are not responsible for color reproduction on press.*

GENERAL DESIGN GUIDELINES:

- If you are wanting to include a "rich black" in your design the following break-out should be used: c50 m30 y20 k100
- Type using process colors should not be smaller than 10pt.
- We recommend reversed type not contain fine serifs or be set using a "light" or "thin" font and should be no smaller than 10pt.

E-AD PREPARATION

DISPLAY AD FILE FORMATS:

Make sure you save your final designs in the correct file format.

CNR will accept the following formats for uploaded display ads:

- JPG
- PNG
- GIF

Generally speaking, JPEG offers the best compression options, so if your file size is cutting it close, try saving it as a JPEG.

COMPRESSING DISPLAY AD FILE SIZE:

Please compress the file size before sending it to CNR.

If you're using Adobe Photoshop or Illustrator, you can use the Save for Web feature to see which file type works best.

To access this feature, open the File menu, click on Export, and select Save for Web.
